CIVIL WAR OFFICERS MEET

The Loyal Legion Holds Its Ninth Quadrennial Congress.

Matters of Importance to the Order to Be Acted On-A Visit Paid to the President - The Companions at a Reception - An Excursion Today.

of the United States convened yesterday in its ninth quadrennial congress and In fact, wherever there is mucous membrane there is a feeding ground for ca-Hotel. This is the first time that the congress of the Loyal Logion has been held

The opening session of the congress was held beginning at 16 o'clock, when the congress was welcomed to the city in a brief address of welcome by Rear Admiral Edwin Stewart, Commander of the local ndery. At 12:30 o'clock the session order, proceeded to the White House, where they were received by the President. At 4 o'clock the congress met again, but adjourned almost immediately.

In the evening a reception, given by the iocal commanders, in henor of the con-gress, was held in the pariors of the Ar-The reception was followed, at

session of the congress will be held this morning at 9 o'clock, when business of the order will come up for considera-tion. In the afternoon the local comundery has provided an excursion down the Potemac to Indian Head for the enterral mount of their guests. The steamer Samuel J. Pentz will leave the wharf, at the end of Seventh Street southwest, at 136 p. m. Returning the steamer will arrice at as near 6 o'clock as possible. A band will provide music during the ex-, and a luncheon will be served on

The privilege of landing at Indian Hend has been especially accorded by the Navy Department in order that a visit may be erations of the modern naval ordnance

prayer, offered by Capt. J. H. Bradford, of the District of Columbia Commandery. The congress consists of three members from twenty commanderies, representing the Northern States, and rollicall indicated a full attendance. Admiral Stew-

"The Commandery of the District of Columbia has been looking forward with pleasure and anticipation to this event, and on behalf of the commandery, I ex-tend a greeting and a hearty welcome. We of the District of Columbia Commandery feel ourselves not only greatly bonored by this meeting of the congress in privileged in the opportunity thus affordus of meeting and becoming acqui ed with so many companions of the order

from other commanderies.
"We trust that your stay among us will inton Commandery to make it so it will be done. Again, companions, I extend our

REMARKABLE SUCCESS WON BY GOOD STICK WORK

Of a New Cutnerh Cure.

A large and constantly increasing ma-jority of the American people are ca-tarrh sufferers. This is not entirely the result of our changeable climate, but be cause modern investigation has clearly proven that many diseases, known by other names, are really catarrh. Formexclusively to the common nasal catarrh but the throat, stomach, liver, biadder, kidneys, and intestines are subject to ca-The Military Order of the Loyal Legion tarrhal diseases as well as the nasal pas-

The usual remedies, inhalers, sprays douches or powders, have been practically failures, as far as anything more than temporary relief was concerned, because they simply dry up the mucous secre-tions, without having the remotest effect upon the blood and liver, which are the in the first and as many in the second in real sources of catarrhal diseases. It has been known for some years that

the radical cure of catarrh could never Pennsy. A placky raily and bunching come from local applications, but from of hits in the eighth actted them two an internal remody, acting on the blood runs, however, and saved them from a and expelling the catarrhal poison from whitewash.

met with remarkable success as a genu-ine, radical cure for catarrh.

It may be found in any drug store, sold lets, large pleasant tusting logenges, comcipally of antiseptic ingredients, Eucalyptol, Guaincol, Sanguinaria, Hydrastin, and similar entarrh specifics.

Dr. Ainslee in speaking of the new ca-

tarrh cure says: "I have tried the new tarth cure says: "I have tried the new catarrh remedy. Stuart's Catarrh Tablets, upon thirty or forty patients with remarkable satisfactory results. They clear the head and throat more effectually and lastingly than any douche or inhaler that I have ever seen, and although they are what is called a patient medicine and sold by druggists. I do not hositate to recomment them as I know them to be free from cocaine and opiates, and that even a little child may use them with entire safety."

afety."
Any sufferer from masal catarrh, throat or bronchial trouble, catarrh of the atomuch, liver or bladder will find Stuarf's
Latarrh Tablets remarkably effective,
densant and convenient, and your drugtist will tell you they are absolutely free
rom any intarious drug.

There are twenty State commanderies

represented in the national congress, three delegates from each State. Nearly all the delegates from each State. Nearly all the delegates are accompanied by three alternates, and besides these there are about 100 companions of the order in the city. Many of these latter are members of the Army of the Potomac and the Army of the Cumberland, who assembled here to witness the unveiling of the Logan statue. the Legan statue.

Among the prominent men in the Legal grion who were present are Renr Adia of Melville, Chief of Engineers of the Melville, Chief of Engineers of the Department; Rear Admiral Stewart, mider of the local communications

r of the local commandery W. Keifer, formerly Speaker o Gen. John W. Keifer, formerly Speaker of the House of Representatives; General Schrifield, formerly in command of the United States Army and Commander-in-Chief of the order; Gen. Ellis Spear, formerly Commissioner of Patents; Gen. Joseph Dickerson, Adjutant General on the staff of General Hooker in the Army of the Potomac, and A. Noel Blakeman, ex-Assistant Paymester in the Navy and Chief of Staff to General Greene, Marshal of the last Inaugural parade.

Georgetown Defeated the Quakers by Bunching Hits.

The Came Clinched in Its Opening Innings by Some Fine Butting-Pennsylvania's Late Rally Saves the Visitors From Being Shut Out.

By dint of lusty stick work in the open ing innings Georgetown yesterday after-noon administered defeat to the University of Pennsylvania, on Georgetown Field, by a score of 6 to 2. A home run Moran, two pretty triples by Captain Walsh, and two singles was the extent of the damage inflicted during the run getting upon the benders of Leary, who was on the rubber for the Quakers. Three runs were scored by Georgetown ning. After that the contest was closely fought and it looked like a shutout for "Pennsy." A plucky rally and bunching

The game was cleanly, played and A new internal preparation which has Georgetown won purely through superior been on the market only a short time has all-around work. The Blue and Grey batsmen did better work and the fielders played an errorless game. Moran's hom run in the first brought in two scores and the masterful way Captain Walsh punched three-baggers brought delight to the hearts of Georgetown rooters.

Blewett was in the box for Georgetown and held the Quakers down to seven hits. His support was of the gilt-edged varie

Pennsylvania was handleapped by the fact that several of the best players were out of the game on account of faculty prohibition and other reasons.

White, and Gawthrope made the outs, while Jones stayed for a time on first as result of the presentation of that base by Blewett. Drill opened up for the Blue a grounder, which Wainsborro fumbled miserably. Connors fouled out, and then Moran came to the plate. He picked out a nice one from Leary, and drove it into the gully back of the centre fielder, and before the ball was anywhere near recov ered he had made a complete circuit of the bases, driving Drill in ahead of him. Walsh drove out a beautiful triple, and was safely ensconced on third when the ball came back to the infield. O'Hara did not lose any time in cracking out a single, scoring Walsh. Devlin drove out another single, and gained second base on an error of the Quaker leftfielder in handling the hit. Apperious and Dowling then quickly retired the side by flying out to Wainsborro and Brown, respectively.

flant opening of the second by driving out a three-bugger. When he pulled up at the third cushion, however, he was declared out by Umpire Betts, because he borro reached first on four balls, but was retired in an attempt to purioin sec Brown made the third out on a long fly. which fell into Walsh's hands. Blewett struck out when Georgetown

went to bat, but the bad beginning was atoned for when Drill got his base on balls and Connors followed suit. Moran and scored Drill, who had made a daring steal of second, and was advanced to third on a passed ball. Connors reached

third on a passed ball. Connors reached third on Moran's hit and secred when waish made his second triple, Moran closely following Connors in O'Hara and Devila closed the inning.

The Quakers secured but a single hit in the third, and that did them little good for they were sent to the field again without scoring. An easy grounder fielded to first, a foul fly to Bennett, and a long drive which ledged in Gawthrope's capackons mit, were the respective fates of Apperious, Dowling, and Biewett in Georgtown's half of the third.

In the following luming the Quakers got a solitary hit, but it failed to increase their score. Then Drill, the refund receiving end of the Georgetown buttery, smashed out a single, but was forced to remain solidiy anchored at first while Connors, Moran, and Walsh went out in rapid order.

One two three ways the way the golfer, today defeated Harry, Vardon on

COMES FROM THE BRAIN.

ANOTHER BENNING RECORD

First Whip in a Drive Does a Mile and Fifty Yards in 1:47.

Carrying 124 Pounds, He Chops 4-5 of a Second Off Weller's Time-Jockey Dart Called to Account for Questionable Riding-The Entries.

One of the largest crowds of the meeting was in attendance at Benning yester-day, and from a racing standpoint the port was all that could be desired. The inishes were exciting enough to make one orget ought else. There was the usual number of books in line, and they had all the business they could do. What is most desirable for those gentlemen of the pencil, they quit winners on the day, as only two favorites won, four races going to outsiders or second choices. The sport began with a dash of six and a alf furlongs, for which there were six fusing the issue. Invasion opened up as an even-money favorite, with Moor and Boney Boy next in demand. There was very little play on either of those two to beat the favorite, the money going on them for place. Aside from the favorit, the best backed horse in the race was Lofter, bundles of money going in on him for place and show, and that it was vise money is proven by the result, as Invasion sinished first and Lofter as easily nd, with Punctual, an outsider in the betting, third. Moor finished where it was intended he should finish, as the boy Dart never made a move on him until 100 yards from the wire, when he woke up and finished fourth. Dart was called nto the judges' stand for an explana-

The second race was for two-year-olds, at half a mile. Astery was an odds-or favorite, opening at 4 to 5, and closing : point lower, 3 to 5. Rong was sehoice and Frivol could be had at 5 to 1.

The start was fair for all excepting Praline, who was left at the post. There were several false breakaways which materially affected the chances of the favorite, who ran out in front several times and practically tired herself out. When the flag did fall Rona and Frivol shot out of the bunch and had the race to themselves. Rona coming away strong at the end and winning by a length ol was second and Astery third. Dart's ride on Rona was in marked contrast to his exhibition on Moor, as he hustled the filly from start to finish.

The steeplechase was next on the pro-gramme. Although only five went to gramme. the post, it was the best race of the kind ever seen at the track. All were good, clean fencers, taking the jumps in excelent style and not a mistake in the whole ourse, except one when Prince Midas fell at the Liverpool. It would be hard to find a better lot of jumpers than the four that finished, and it is a pleasure to see such well schooled horses. Lady Dainty and Marzo were equal favorites, the Lady was away the best.

The fourth race had the largest field of the day, eleven going to the post. some unaccountable reason Midnight Chimes was made the favorite, opening and closing at 2 to 1. Gwynne and Back Talk were second in demand at three's, with any old price against the rest. Neith-

WHITE DEFEATS VARDON.

First Whip has given another proof that he is a grand horse, as game as a pebble, always ready to do what is asked of him. He won the race on his courage and hung up a new record for the distance on the Benning track. How good a race he ran can be estimated by comparison with the track record, made November 17, 1825. Weller, three years old, carrying 83 pounds, covered the distance in 1:47-4-35. First Whip yesterday carried 124 pounds and ran the distance in 1:47 he is trained by James McLaughlin, who brought him to the post fit to run the race of his life. The horse is considered a cripple, and it is doubtful if there is another trainer in the country who could do with First Whip what McLaughlin has done, winning eighteen races last year with him and bidding fair to win as many more this year. The horse was spiendidly ridden by Burns, who reserved what was in his mount until the right time.

The card for today is as usual, but as the meeting draws to a close the fields grow larger. The first race has nineteen entries, but as only fourteen can start, according to rule, some will have to be withdrawn. There are the regular six races on the programme, of which one is a maden hurdle at one and three-quarters miles, and carded as the third race. The summary is as follows.

First race—For three-year-olds and upward: six and a half furiongs—Invasion (Burns), 9 to 19 and out, won; Lofter (Landry), 8 to 1 and 2 to 1, second; Punc-

Mason's Por Overcating, Drinking and Smoking.

ran.
Start good. It was the favorite's race all the way, winning by a length and a half. The surprise of the race was the finish of Punctual, who, at the long edds of 10 to 1 against him, beat out Moor and landed third. He ran a cracking good was but out in a very weak ride on

(O'renson), even and out, second; Frost (Grennan), é to 1 and even, third. Time, 123:3-5.

Gold Fox also ran.

Start fair. Coming out of the chute on the main track the order was Gold Fox, Imperialist, Prosit, with Scurry last. This was the order to the turn for home, where Scurry overhauled his field and joined the leaders. Turning into the stretch Gold Fox fell back, giving way to imperialist, who came on and won by five lengths, Scurry second. Gold Fox pulled up bleeding.

Sixth race—Handicap, for four-year-olds and upward, one mile and fifty yards. First Whip (Burns), 2 to 1 and 1 to 2, won; Alsike (Breiman), 9 to 5 and 2 to 5, second, Alsike (Wilkerson), 4 to 1 and even, third. Time, 1:45.

Decanter also ran.

Start good. Alsike went out to do the running, the rest close up. Alsike led to within 100 yards of the wire, when he was joined by First Whip, and it was a fighting finish to the wire. Whip setting the verdict by a short neck. The time, 1:47, establishes a new record for the track. Burns rode a grand race on the winner and had a game horse under him.

Phosphates Found on the Skin and Thrown Out From Pores.

We know that active brain work throws out the phosphate of potash, for this product is found on the skin after excessive brain work, therefore, brain workers, in order to keep well, must have proper food containing phosphate of potash to quickly and surely rebuild the used-up tissue. That one can obtain such food has been proven in thousands of cases among users of Graps-Nuts Food.

This contains phosphate of potash in minute particles, just as it is furnished by nature in the grains.

This product makes from albumen the

minute particles, just as it is furnished by nature in the grains.

This product makes from albumen the grey matter that builds the brain and fills the nerve centres.

In no way can this grey matter be made except by the action of phosphate of potash upon albumen, and this mineral should be introduced to the body just as it comes from nature's laboratory, and not from the drug store. The system is more or less featidious about taking up the needed elements, and, as might be suspected it will favor the products of Mother Nature rather than the products of the drug shop, however valuable the list may be for certain uses.

Lawsers, journalists, doctors, ministers, business men and others, who earn their living by the use of the brain, are using Grape-Nuts Food. It is manufactured for a reason and was originated by an expert. The regenerative value of the Food has been demonstrated beyond question.
